Table bands

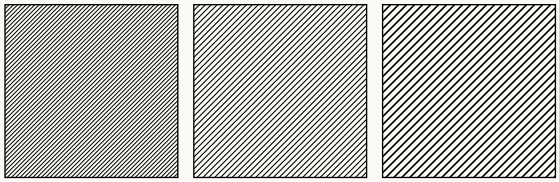
d6	Result (6% band on even rows)
1	Row text at 9.5 pt
2	Banded row
3	Row text
4	Banded row

Substrate comparison

cream #FCFAF5

white #FFFFFF

Hatch survival (0.3–0.6 pt lines at 1.6–3 pt pitch)



Grayscale steps

Check after printing: the 1-inch square measures 1 in; the solid 3/8 in SAFE frame is fully visible on all four sides (if the driver's borderless expansion crops it, the book's folios and text may be at risk — reduce expansion); 9 pt type and 0.3 pt rules are legible; bands are visible but light; hatch lines remain separate; the cream tone reaches all edges without white bands.
